

Comfort Systems Inc. Larned

As you know, Comfort Systems Inc. has worked in our customer homes every day, all year long, for over 55 years.

We have long been proud of the services we provide. Because of the increased concern for you, your families and our employees, we have made the decision to change our processes.

As local representatives of “Essential Critical Infrastructure Workers” as designated by the U.S Dept. of Homeland Security, we will be open and ready to serve our community and customers.

"Workers such as plumbers, electricians, exterminators, and other service providers who provide services that are necessary to maintaining the safety, sanitation, and essential operation of residences" are specifically recognized on the list, which may be viewed at <https://www.cisa.gov/publication/guidance-essential-critical-infrastructure-workforce>

We don't take this responsibility lightly and will do everything we can to get you the products and services you need. However, we are taking special precautions to protect the health and safety of both our employees and customers.

At our office:

- Cleanliness is a priority. We are focused on maintaining hygiene and implementing sanitization protocols recommended by the CDC as well as disinfecting customer high-touch surface areas regularly.
- We are taking the temperature of all employees each morning and they know if they are not feeling well, they should not report to work.

At Your Home or office:

- We will be asking questions about the health of anyone in the home and will be asking that you allow us to work and keep children and pets in another area.
- We are doing this to protect your family, our employees and their families and the families of your neighbors in the next home we enter. <https://www.cdc.gov/coronavirus/2019-ncov/downloads/workplace-school-and-home-guidance.pdf>

REMEMBER :

We are all in this together

We are here for you all and will help with questions, information and services on how to make your home, family and community safer, healthier and wiser.

Thank You for listening
Steven Lewis
